Yakov
That's good. I hope it'll pave the way for the trilateral meeting. Best dates for me are October 2-3.
I think a meeting with Torocskei before Sz is a good idea.
Stay in touch.
Best
EB

Kedves Hölgyem

Mellékelten megküldöm a Renova csoport által a kazah államadósság érvényesítésére küldött tervezetüket. Amennyiben munkatársaik konzultálni kívánnak az anyagról, úgy a Renova csoport képviselői készségesen állnak rendelkezésükre.

Tiszelettel,

Kira Péter

Dear Peter

Please see attached a presentation prepared by our counsel and outlining the proposed framework of our co-operation with the Hungarian government. As you will see the document is more extensive than you requested and as such is intended to serve two purposes.

First, it will help the Hungarian officials involved in the process to better understand the proposed structure of co-operation (please, see pp 6 – 8 where we outline our view of the legal framework as well as the action plan for the first stage (i.e. until the binding documents between Hungary and ourselves are signed). It is our view that the first stage shall comprise four milestones: (i) meeting of the Hungarian PM and Mr Vekselberg; (ii) formation of the working group consisting of the designated representatives of both sides; (iii) signing of the non-binding term sheet with the Hungarian government which will memorialize all the arrangements and set out the project road map; and (iv) preparation and signing of the binding legal documentation.

Second, the attached presentation contains specific historical and legal information which should be helpful for lawyers engaged by the Hungarian government in their assessment of the practicability of the proposed course of action. I would be grateful if you could let me know whether Hungarian government's lawyers have already prepared a memorandum addressing this issue and, if so, whether we can have a copy of it (obviously on a confidential basis). This would allow us to provide them with necessary additional information and explanations of any grey areas or problems that they may have identified. For this purpose, we can involve our counsel, a reputable international law firm, which possesses all necessary information and documents. Alternatively, if we cannot receive that memorandum, we can set up a conference call or meet with them in person. Please, let me know.

Should you have any further questions or comments, please let me know.

Thank you

Oleg

Dear Oleg

We have spoken to the Hungarians involved in prepairing the agreement between Renova and the governement of Hungary.

It would help us move ahead, if we could get a ppaer from you outlining the legal framework of the 2 possible scenarios for the co-operation. (One was where the

governement of Hungary took title to the claim, and appointed Renova to collect it, the other when the title remained with Renova, but we had a contract that fell under the Bilateral Investment Treaty of Hungary and Kazahstan, and the Hungarians would assist in collecting.)

What they would need is a one or two page explanation in the legal structure of both cases, and the explanation how the two parties would co-operate to collect the claim.

If you can send me a paper like that by e-mail, I will pass it on to them.

Yours, Peter
